

Be.CULTOUR webinar series in 2023 - first event on 24/2/2023

The Be.CULTOUR project, focused on enhancing enhancing cultural heritage and landscape values for sustainable cultural tourism, is launching a **new series of webinars** to **boost peer learning among its Community of Interest and other followers**. Various experts and on-field stakeholders will be invited to present and discuss their innovative ideas, their progress and their challenges concerning cultural tourism and beyond. The main purpose is to learn from peers and acknowledge the best practices from the field: where the challenges lay and how to face them.

The innovative and comprehensive approach to the cultural tourism sector, combined with the replicability of practices and co-creation methodology, is the added value of Be.CULTOUR webinars. The webinars are not only intended for the scientific community and policy-makers, but also for civil society and all other interested followers.

Given that recently Be.CULTOUR and INCULTUM established a cooperation agreement for cross-dissemination and knowledge exchange, the webinar series will be promoted also via the INCULTUM Training Portal and in the INCULTUM network.

The first event of the series is entitled "**Circular cultural tourism: the role of Heritage Innovation Networks for co-creation and communities' empowerment**", and is organized on **24 February 2023**. The webinar will explain how to bring together expert and local knowledge to let 'hidden' cultural resources emerge and be recognized and fully exploited as a driver of local development, community empowerment and innovative entrepreneurship through circular cultural tourism.
