

## IBC 2015 - EBU Open Source meetup

Just like last year, the EBU Open Source Meetup at IBC features a series of 5 minutes lightning talks on open source projects and use cases from the broadcast domain, covering topics on production, contribution and distribution, such as: graphics and video play-out, audio & video encoding, transcoding in the cloud, DAB+ radio broadcasting, etc.

### **Presentations**

The list of presentations are currently under preparation. There are still lightning talk slots left.

[Contact EBU team](#) if you want to present a project/use case.

### **Registration**

We recommend you to register if you plan to come to this event.

## Further Information

## Exhibit at IBC2015

IBC provides you with an unparalleled platform to meet, address and learn from [55,000+ of the most engaged power brokers, press and prospects](#) in international electronic media and entertainment. The fourteen exhibition halls, themed by creation, management and delivery are complimented by a host of [Feature Areas](#) specially designed to enhance your experience. Deepen your understanding by taking in the IBC Conference and maximise networking at events including the industry established [IBC Awards](#).

IBC2015 Exhibition 11 - 15 September 2015

## About the IBC Conference

### **IBC2015 Conference: The Future of Media in an Age of Disruption**

The IBC Conference (<https://tech.ebu.ch/ibc2015>) is an unrivalled global destination for discussion and debate about the many different challenges facing the electronic media and entertainment industry, both in its sessions and in the range of networking opportunities it affords. Featuring some of the foremost thought-leaders, innovators and policy makers in their fields and covering a wide breadth of topics, it is the place to explore new strategies, understand business disruptors, chart future technological progress and uncover the future roadmap of the industry.
