On 24th March the "Café com Letras/ Coffee with Letters" was hosted at FNAC do Forum Algarve in Faro, engaging in conversations and talks about "Water and its Heritage". The event was organised by the Algarve Regional Directorate for Culture, the Algarve University Library and was aimed at the general population with a large participation of public officials, teachers, university students, cultural agents, artists and intellectuals of the region.

During this event, Professor Desidério Batista had the opportunity to speak about INCULTUM, and in particular about the [Portuguese Pilot](#), providing training on the promotion strategies that the Pilot experiments in the area. This is an important occasion for the dissemination of the work developed so far on water heritage as a basis for community-based cultural tourism in the "Campina de Faro".

?Café com Letras? was also broadcasted live by Algarve University Radio (RUA FM).
