

Kaleidoscope project meeting in Helsinki

The progress meeting of [50s in Europe Kaleidoscope](#) project took place on the 5th June in Helsinki, attached to the [annual event of Photoconsortium](#) hosted by Museovirasto.

Partners met particularly to discuss the next steps in two main areas of the project: the development of the services for **visual recognition** and for **crowdsourcing** that the project is implementing to support metadata creation and enrichment for photographic content relating to the fifties, and the content selection for the **project's exhibition** to be launched in a double format: as a travelling physical exhibition of printed photographs to premiere in Pisa on 6th September, and on Europeana as a virtual exhibition to be published online in Autumn 2019.

Other topics tackled in the meeting touched upon the progress of the **MOOC**, to be available for user testing in Autumn and the brand new access point for educational content online, the upcoming **Educational Portal** which will be available soon also including cooperation with Europeana community on education.
