

Tools to Maximise Impact in Digital Cultural Heritage - workshop

Tools to Maximise Impact in Digital Cultural Heritage

Thursday, November 13, 2014, Brussels, Belgium

[Register for Free](#)

The need for greater interaction and engagement with audiences and users is widely understood by those working in the the digital cultural heritage sector. But finding tools to help with this is difficult.

This workshop will focus on how you can assess the impact of your work and get support in promoting your results for better engagement with peers and users.

Registration: [here](#)

AGENDA

A day full of interactive discussions and presentations to better support you in reaching your research and organisational goals and covering:

09:00 - 09:45: **Impact assessment for digital cultural heritage research projects**, Francesco Bellini (Eurokleis)
